# Writing a Manifesto

The arts can be a catalyst for change, radical thinking and new approaches.

The arts lets us take risks and do things we may not have the courage or ability to do in our everyday lives

The arts are the vehicle that can drive us into the future.

## BELIEFS

## CHANGE

What do you see around you everyday that you wish you could change?

## GREAT IDEAS

Do you have ideas, dreams, ambitions, goals or fantastical fantasies that you'd love to see realised?

## OUR FUTURES

What do we see as our potential future after these changes? What have we left behind?
